OPERATING EXCEPTIONS DETAILED

Starting in September Severn Trent Labs will be the new analytical lab for the Kin Buc Facility
It was brought to our attention in August that our current lab Columbia Analytical Services
were no longer going to be doing business in New Jersey. Arrangements were made and
Severn Trent Labs were brought in and trained in sampling and analytical procedures for the
facility. At this time we are pleased with the service that STL has provided to the site and look
forward to a long relationship with our new lab.

Re: August Week 4 Metals Parameters

Dear Ms. Diaz-Cotto:

Please be advised that for the fourth week Columbia Analytical Services Laboratories could not provide the appropriate metals analysis on time due to some instrumentation problems they encountered at their laboratory.

For the month of August we were in transition from Columbia Analytical Services to Severn Trent Laboratories, our current lab. All parameters were tested as deemed necessary by KinBuc Landfill Permit Equivalent. A total of seven results, 2 for each week except for the last week, were calculated as far as metals for August's Discharge Monitoring Report.

If you have any questions please feel free to contact me at your earliest convenience

Very truly yours,

Re: Laboratory QC Problem

Dear Mr. Grieb:

We must notify you of a continuing QC problem we are having with the metals analysis of a sample taken from your effluent on 8/27/2002. We apologize for the delay and the difficulty this problem is creating with reporting your DMR for the month of August to the State of New Jersey. We will rectify the problem shortly so you can complete your report.

Thank you for your patience and let us know if you need any more documentation of the problem when discussing the delay with the state.

Sincerely,

Mark Willson
US Filter Project Manager
